

EV Qualified Supervisor

We are looking for a proactive and enthusiastic individual to join our team and take responsibility for the Qualified Supervisor responsibilities of our EV Charge Point Installations, being carried out across the UK for our high-profile customers.

The ideal candidate will be a competent electrician with a keen eye for detail, a team player and will strive for perfection. We need a QS capable of overseeing our projects to ensure our installations are BS7671 compliant, high standards are maintained, works are delivered on time and within budget and the customer experience remains of paramount importance throughout project delivery. Experience working with DC rapid chargers is a necessity.

Role Responsibilities:

- Support the EV Project Managers to plan and deploy resources for EV ChargePoint installations.
- Manage the daily planners for our EV Installers.
- Assist the EV Project Managers to produce take off sheets from designs and procure all relevant electrical installation materials.
- Ensure all installations are compliant with BS7671, using their own competencies along with specific systems and processes designed to manage the quality of work.
- Compile/review/challenge site specific RAMS.
- Compile/review/challenge site specific Programmes of Work.
- Carry out Health & Safety Audits.
- Carry out Toolbox Talks with Installers on the ground.
- Prepare, review and sign off NICEIC Electrical Installation Certificates.
- Assist the EV Project Managers to compile the necessary hand over documentation for each project.
- Any other reasonable request in line with this role given by the EV Operations Manager.

Essential Training or Qualifications

The individual will need to demonstrate competency of their experience in electrical supervision, along with evidence of how they currently lead their teams. The candidate will come from an Electrical background and hold qualifications in these fields:

- C&G L3 Electrotechnical Qualification
- C&G BS7671:2018 Wiring Regulations
- C&G 2391 (or equivalent) Inspection and Testing
- C&G 2919 (or equivalent) Electric Vehicle Charging
- Leadership/Supervision experience
- Full UK Driving Licence
- JIB/CSCS Card
- EVCI Experience
